Passcode: 814767

Report :

The second event in the gaming week of Teknack - HOUSIE started of with Grejo Joby (ACM DBIT Vice - Chairperson) explaining the rules, the prices and the method in which the event was going to be conducted.

One by one the numbers were called out and the participants were eager to call out their prices as and when they get lucky. Once all prices were filled by the participants the game was continues till the last number was called out which was surprisingly the first number in the number scale, i.e. '1'.

In the end everyone went back to their own chores with smiles on their faces and a event to remember. Also one noteworthy thing is that the platform on which the numbers were displayed during the Housie event was made by our ACM student chapter members Grejo Joby (Vice - Chairperson ACM DBIT) and Hayden Cordeiro (Technical Head).

Pictures :

The screenshot shows a digital interface for the Teknack 2021 Housie event. At the top, it indicates 'You are viewing Grejo Joby's screen' and 'View Options'. The main area is a 10x10 grid of numbers from 1 to 100. On the left side, there are 'Generate' and 'Recover' buttons. On the right side, there are logos for INFIBON (Chief Education Partner) and IMPERIAL (Associate Sponsor). The bottom left corner features the Teknack 2021 logo with a game controller icon.
