Report on Parent Teacher Meeting (Odd Sem) 2021-22

Date and Day: Monday, 25th November'21

Time: Flexible as per the convenience of parents

Students attendance was calculated from 30th Aug'21-20th Oct'21. The one-to-one PTM sessions were conducted with the parents of those students who were defaulters by assigning faculties of SE class to each one of them. This arrangement helped in creating an interactive environment for the parents enabling them to speak freely and discuss their queries with the faculty assigned. The average duration of each of the meetings was around 15-20 minutes. Faculties shared students' attendance, IA1-Marks and department newsletter with all the parents. Some parents were really surprised to know that their ward in defaulter list as it seemed to them that they were attending all online lectures. They appreciated the fact that teachers were taking lot of efforts to teach them online, especially the way the practical's were conducted. At the end of the meeting, every faculty entered the details of their discussion in a google form, and parents were also asked to fill the feedback forms for the meeting.

Count of parents who attended the meeting: 10 (Parents of S.E. students)
