Summary:

A session was organized for the students of Third Year Computer Engineering who have enrolled in the elective subject - Enterprise Resource Planning by Ms. Priya Kaul. The session aimed at providing insights to the students about the industry practices and standards in ERP implementation by Mr. Reuben Mathew Philip, Business Analyst at Global Speciality Fulfillment, Amazon, USA. Reuben completed his B.E. at DBIT in 2016. He has done his M.S. from Northeastern University.

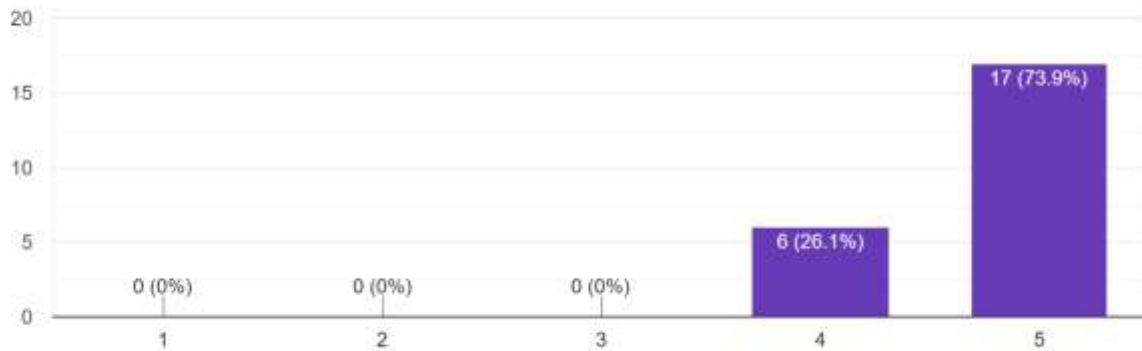

The session commenced with the welcome note by Ms. Priya Kaul, the faculty in charge of the event. Mr. Reuben shared his knowledge on the various aspects of ERP implementation in the industry and the various methodologies and techniques used while planning and implementing an ERP strategy. He shared his knowledge from his working experience over the years in the industry and his journey from working on PeopleSoft ERP solutions to working at Amazon.

The session was followed by a Q&A session where the students asked their questions and doubts to the speaker. Mr. Reuben enthusiastically answered the queries with the help of practical examples. The session concluded with the vote of thanks given by Mr. Grejo Joby, the student coordinator for the event.

Feedback:

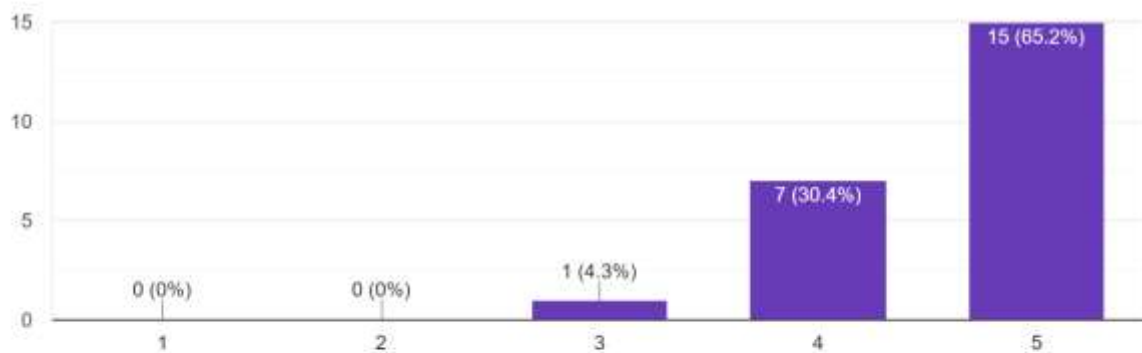

Do you think that Speaker was well-prepared and organized for the session ?

23 responses

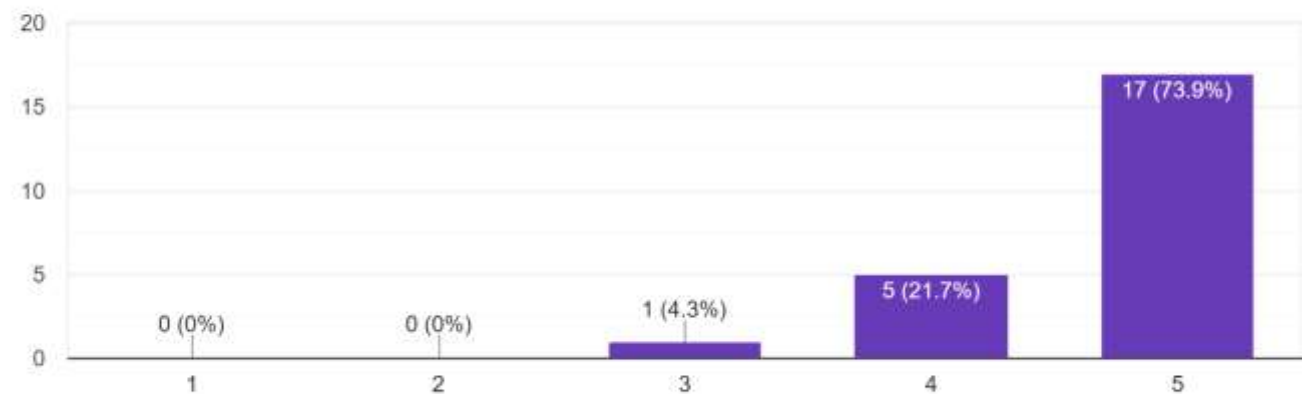

Do you think the information gained from this session will enable you to relate the concepts of ERP with real-time situations in a better way ?

23 responses

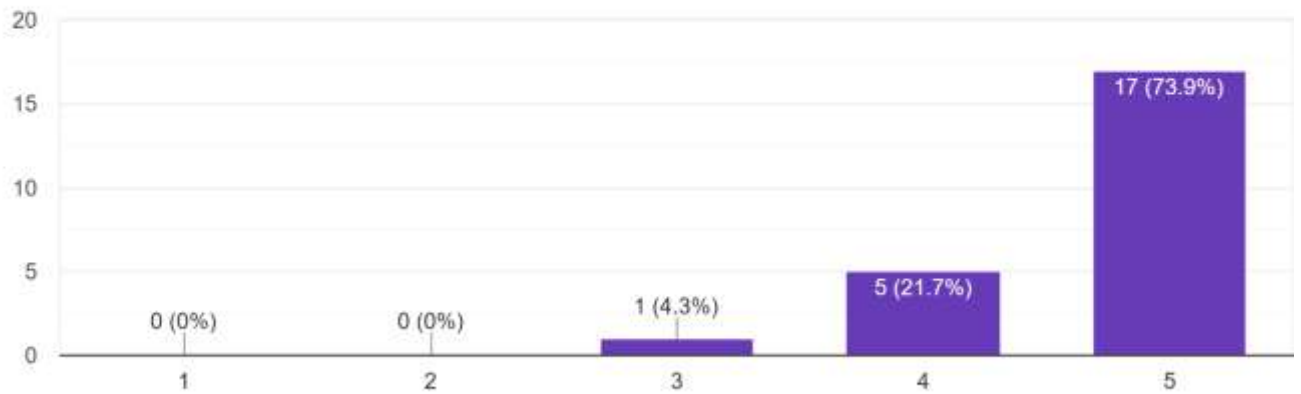

The Speaker was able to answer all questions satisfactorily?

23 responses

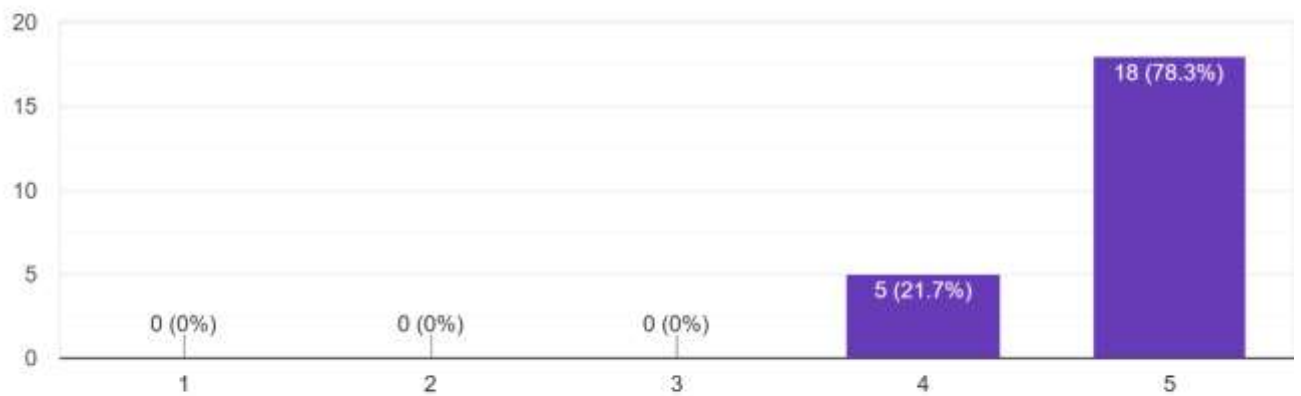

Speaker was able to deliver appropriate information about the implementation challenges in the field of ERP ?

23 responses

Did you find the Session informative and thought-provoking?
